The NJDOT Research Showcase is organized by Rutgers Center for Advanced Infrastructure and Transportation on behalf of the New Jersey Department of Transportation (NJDOT) Bureau of Research.

The New Jersey Department of Transportation (NJDOT) Bureau of Research is seeking presentations for its next virtual Research Showcase! Presentations related to transportation research will be considered for virtual presentation during the 23rd Annual Research Showcase, to be held virtually on October 27, 2021. The theme for this year's event is "Smart Transportation: Building a Brighter Future."

We welcome you to submit completed or nearly completed transportation-related research studies. If selected, you will present your work virtually the afternoon of October 27. Presentations will be in 20 minute increments and will be selected by NJDOT Research Bureau personnel.

To be considered, you must email your proposed presentation topic(s) with accompanying abstracts to Janet Leli (jleli@soe.rutgers.edu), Director of the New Jersey Local Technical Assistance Program, no later than September 18, 2021.

Be sure to include:

- Title and abstract of the presentation
- Name and email address of the person who will be presenting
- Which category your project most closely aligns with:
 - Energy/Electrification
 - Smart Transportation
 - Infrastructure
- Any additional information you feel necessary

All submitters will receive a confirmation regarding the selection committee's final decisions.

Thank you for your interest and participation in the NJDOT Transportation Research Program.
