

**New Jersey  
Department of  
Transportation 23rd  
Annual Research  
Showcase**

**CALL FOR POSTERS-  
VIRTUAL POSTER  
SESSION**

The New Jersey  
Department of  
Transportation  
(NJDOT) Bureau of  
Research invites you to  
participate in its virtual

poster session! Posters related to transportation research will be considered for virtual presentation during the 23rd Annual Research Showcase, to be held virtually on October 27, 2021. The theme for this year's event is ***"Smart Transportation: Building a Brighter Future."***

We welcome you to submit for consideration any transportation related projects that are completed or substantially completed research studies. These do not have to be projects funded by the NJDOT. Selected posters should be created on PowerPoint with Widescreen (16:9) slide size. A minimum of 14 pt. sans-serif font should be used. Selected presenters will be required to submit a 7-9 minute audio recording with a high-level overview of their poster that participants will listen to while viewing the poster. Audio recordings should be submitted in mp3 or wav format. The recording should be similar to what a presenter would say in an in-person poster session. For those selected to present, poster file and video file will be due by October 10, 2021.

To be considered for presentation in this unique poster session, you must submit a poster title and one paragraph abstract of your poster topic. Poster abstracts are due to Ted Green at [tngreen@soe.rutgers.edu](mailto:tngreen@soe.rutgers.edu) by September 23rd. Questions can be sent to Ted Green at [tngreen@soe.rutgers.edu](mailto:tngreen@soe.rutgers.edu).

Please include:

- Poster Title
- One paragraph abstract.
- Name and Email for the person who will be presenting the poster in the video presentation.
- Affiliated academic institution (i.e. NJIT, Rowan, Rutgers, etc.)

Thank you for your interest and participation in the NJDOT Research Program.
