# NJLTAP Snapshot Report

Workshops

93

Attendees

5,880

Training Hours

19,400

NJLTAP, housed within Rutgers Center for Advanced Infrastructure and Transportation (CAIT), supports local public agencies and consultants and contractors working on their behalf. We offer a variety of training, technical assistance, and technology transfer services that help manage and maintain roadway systems across New Jersey. In 2023 our workshops provided needed practitioner-level training across a range of safety, infrastructure, and workforce development topics. NJLTAP also provided mission-critical information sharing and support for FHWA programs impacting the state, including the latest on Every Day Counts innovations, new funding opportunities in the Bipartisan Infrastructure Law, and implementation practices for the National Roadway Safety Strategy.

## PROFESSIONAL MEMBERSHIPS

11

# OUR REACH

# COMING IN 2024

- ➔ New supporting resources for Build a Better Mousetrap – a library for access to previous years' winners, and a new promotional video
- ➔ New courses in Ramp Design and Inspection for Public Sidewalk Curbs
- ➔ A Safe Tree Trimming and Tree Maintenance workshop
- ➔ More in-person courses at NJDOT's new centrally located Bordentown training facility
- ➔ The return of the in-person New Jersey State Association of County Engineers' Fall Forum

"The instructor was extremely knowledgeable and easy to follow. He made it easy to stay engaged in the presentation."

*Participant from Highway Inspection Procedures for Federal-aid Projects course*

"NJLTAP provides the public works community with an almost limitless amount of professional development opportunities - from safety on the job to applying for funding."

*Participant feedback from email*

"I can assure you that our entire team has really enjoyed the presentations and feel that the system being used recently is effective and efficient."

*Participant from Work Zone Safety for Road Departments course*

The New Jersey Local Technical Assistance Program is funded by the Federal Highway Administration and the New Jersey Department of Transportation.
