The NJDOT Research Showcase is an event of the New Jersey Department of Transportation's Bureau of Research and Innovation and organized by the Rutgers Center for Advanced Infrastructure and Transportation (CAIT).

The New Jersey Department of Transportation (NJDOT) Bureau of Research and Innovation is seeking presentations for its next Research Showcase, to be held in person at The Conference Center at Mercer! Presentations related to transportation research will be considered for in-person presentations during the 28th Annual Research Showcase, to be held October 28, 2026. The theme for this year's event is "The Road Ahead: AI and the Future of Transportation."

We welcome you to submit completed or nearly completed transportation-related research studies. If selected, you will present your work in-person on the afternoon of October 28. Presentations will be in 20-minute increments and will be selected by NJDOT Research Bureau personnel.

To be considered, you must email your proposed presentation topic(s) with accompanying abstracts to Janet Leli (jleli@soe.rutgers.edu), Director of the New Jersey Local Technical Assistance Program, no later than September 18, 2026.

Be sure to include:

- Title & abstract of the presentation ➤ Name & email address of the presenter
- Which category your project most closely aligns with:
[Infrastructure](#) • [Safety](#) • [Digital Transformation](#)
- Any additional information you feel necessary

All submitters will receive a confirmation regarding the selection committee's final decisions. Thank you for your interest and participation in the NJDOT Transportation Research Program.
